PROFILE

I am a **Databricks-certified data engineer** and a **first-class honours chemical engineering graduate** from **University College London**, with a minor in programming. I have built my experience from the ground up: through my degree, self-directed learning, intensive courses, certifications, hackathons, and hands-on industry work. Most recently at **Mobiess (part of Bellrock Group)**, I spearheaded an **AI Survey Creator** using agentic development and MCP servers, and helped **increase survey efficiency by up to 20%**. I also lead my own products, **Seed Melon** and **Coup**, and run a web design business, bringing **data engineering**, **AI** and **software development** skills from concept to delivery.

SKILLS & CERTIFICATIONS

Data Engineering | **Databricks & Spark** | **Python & SQL** | **AI & Agentic Development** | **NLP**
Cloud & DevOps | **Web Development** | **Agile Delivery** | **Client Onboarding & Support**

Certifications:	***Databricks Data Engineering Associate***
Programming Languages:	Python, HTML/CSS, SQL (PostgreSQL, SQLite)
Data Engineering:	Kafka, Spark, ETL, stream processing, data cleaning, Firebase, Databricks
Data Science & ML:	Pandas, regression, NLP, NER, Fuzzy Matching
Visualization:	Matplotlib, Plotly, Dash, Tableau, Streamlit
Cloud & DevOps:	Docker, AWS, Terraform
IT & Software Development:	OOP, Clean Code, TDD, Git, Flask, APIs, security fundamentals
AI:	MCP servers, multi-agent frameworks, prompt engineering.

WORK EXPERIENCE

Mobiess LTD (Part of Bellrock Group) | *Technical Support Specialist* — Apr 2026 – Apr 2026
Mobiess LTD (Part of Bellrock Group) | *Software Onboarding Consultant* — Jun 2025 – Apr 2026

- Spearheaded project utilising **AI** to develop an **AI Survey Creator**, innovating internally in first 2 months (**Agentic development**, **prompt engineering**, **MCP server** calls)
- Delivering **seamless software experiences** for Mobiess clients & surveyors
- **SQL**, **Excel**, **JavaScript**, and **Company SaaS** (Software-as-a-Service) utilised.
- Understanding surveyor bottlenecks to **increase survey efficiency by up to 20%**
- Digital **autonomous report & dashboard creation** for audit assurance
- Knowledge base overhauling as part of **product enablement internally and externally**
- **Testing bugs** and ticketing for fixes using **Agile development** practices

Centurion Global Consultancy LTD | *IT Engineer* — Jul 2024 – May 2025

- Developing **IT infrastructure** for an accounting business, revolving around a website & email.

Self Employed | *Web Designer & Developer* — Apr 2024 – Present

- Developed **websites** with **1000's of users/m** (**Web Apps**, **Wordpress**, **Analytics**, and **Hosting**).

H&C Retailing LTD | *Managing Director* — Aug 2022 – Sep 2023

- Responsible for transforming an idea (halal Chinese steamed chicken stall) into a business.
- Connecting with top delivery platforms (**Uber Eats, Deliveroo, Hungry Panda** etc.).

PROJECTS

Seed Melon **- Ethical Startup Launchpad** | *Project Lead & Head Developer* — Sep 2025 – Present

- Leading creation of an **MVP** for an **ethical startup launchpad**. Pre-Launch Stage

Coup **- Media Sentiment Analyser** | *Lead Engineer & Quality Assurance* — Sep 2023 – Present

- **Agile development** of project, **cloud resource initialisation**, **fabricating 2 dashboards**
- Utilised **NLP** to **calculate attitude** within text used by **BBC**, **Daily Mail**, and **Reddit/BlueSky,** to **compare negative or positive sentiments** held on **current topics** (categorised by **AI**)

EDUCATION & TRAINING

University College London (UCL) | *BEng Chemical Engineering* — Sep 2020 – Jul 2023

- First Class Hons (4.0 GPA) - Accredited by IChemE
- Minor in **Programming**: Application Programming for Data Science; Applied Software Engineering

Sigma Labs | *Software & Data Engineering Course* — Jun 2023 – Sep 2023

- Completed training focused on **backend development**, **data science**, **data engineering**, and **cloud computing**, culminating in **4 technical case studies**.

Beal Sixth Form | *A Levels* — Aug 2018 – Jul 2020

- Maths: A Physics: A Chemistry: A

HOBBIES & INTERESTS

Most of my hobbies involve **sports** (Martial Arts, Football, and Calisthenics). I am also active in the **tech community** through **hackathons**, **conferences**, and **personal networking**
