EDUCATION

University College London (UCL) | *BEng Chemical Engineering* *Sep 2020 - Jul 2023*

- First Class Hons (4.0 GPA) - Accredited by IChemE

Minor in **Programming**

- Application Programming for Data Science
- Applied Software Engineering

Beal Sixth Form | *A Levels* *Aug 2018 - Jul 2020*

Maths: A Physics: A Chemistry: A

WORK EXPERIENCE

Mobiess LTD (Part of Bellrock Group) | *Technical Support Specialist* *Apr 2026 - Apr 2026*

| *Software Onboarding Consultant* *Jun 2025 - Apr 2026*

- Spearheaded project utilising **AI** to develop an **AI Survey Creator**, innovating internally in first 2 months (**Agentic development**, **prompt engineering**, **MCP server** calls)
- Delivering **seamless software experiences** for Mobiess clients & surveyors
- **SQL**, **Excel**, **JavaScript**, and **Company SaaS** (Software-as-a-Service) utilised.
- Understanding surveyor bottlenecks to **increase survey efficiency by up to 20%**
- Digital **autonomous report & dashboard creation** for audit assurance
- Knowledge base overhauling as part of **product enablement internally and externally**
- **Testing bugs** and ticketing for fixes using **Agile development** practices

Centurion Global Consultancy LTD | *IT Engineer* *Jul 2024 - May 2025*

- Developing **IT infrastructure** for an accounting business, revolving around a website & email.

Self Employed | *Web Designer & Developer* *Apr 2024 - Present*

- Developed **websites** with **1000's of users/m** (**Web Apps, Wordpress**, **Analytics**, and **Hosting**).

H&C Retailing LTD | *Managing Director* *Aug 2022 - Sep 2023*

- Responsible for transforming an idea (halal Chinese steamed chicken stall) into a business.
- Connecting with top delivery platforms (**Uber Eats, Deliveroo, Hungry Panda** etc.).

Sigma Labs | *Software & Data Engineering Course* *Jun 2023 - Sep 2023*

- Completed training focused on **backend development**, **data science**, **data engineering**, and **cloud computing**, culminating in **4 technical case studies**.

CURRENT PROJECTS

Seed Melon **- Ethical Startup Launchpad** | *Project Lead & Head Developer* *Sep 2025 - Present*

- Leading creation of an **MVP** for an **ethical startup launchpad**. Pre-Launch Stage

Coup **- Media Sentiment Analyser** | *Lead Engineer & Quality Assurance* *Sep 2023 - Present*

- **Agile development** of project, **cloud resource initialisation**, **fabricating 2 dashboards**
- Utilised **NLP** to **calculate attitude** within text used by **BBC**, **Daily Mail**, and **Reddit/BlueSky,** to **compare negative or positive sentiments** held on **current topics** (categorised by **AI**)

TECHNICAL CERTIFICATIONS & SKILLS/LANGUAGES

Certifications: ***Databricks Data Engineering Associate***

Programming Languages: Python, HTML/CSS, SQL (PostgreSQL, SQLite); Data Engineering: Kafka, Spark, ETL, stream processing, data cleaning, Firebase, Databricks; Data Science & ML: Pandas, regression, NLP, NER, Fuzzy Matching; Visualization: Matplotlib, Plotly, Dash, Tableau, Streamlit; Cloud & DevOps: Docker, AWS, Terraform; IT & Software Development: OOP, Clean Code, TDD, Git, Flask, APIs, security fundamentals; AI: MCP servers, multi-agent frameworks, prompt engineering.

HOBBIES & INTERESTS

Most of my hobbies involve **sports** (Martial Arts, Football, and Calisthenics). I am also active in the **tech community** through **hackathons**, **conferences**, and **personal networking**
